Possible timber import from Bosnia and Herzegovina

Dear Sir or Madam,

We are a Danish timber trade company named Thorlund Skou A/S. We consider expanding our assortment to include the wood type "Black locust" (*Robinia pseudoacacia*). We have found out that this wood type grows in most of Eastern Europe.

Therefore, we would like to ask You if there are any timber trade organizations or sawmills that produce this wood type in Bosnia and Herzegovina which You can connect us to or give us some contact info to.

We look forward hearing from You.

Yours faithfully,

Mads Hedegaard

Thorlund Skou A/S
